2917, rue de Summerside
Québec, (Québec)
G1W 2E9

C A R R E R P R O F I L E

Physicist with a broad scientific background in the fields of space systems, optical instrumentation, data analysis, energy, sustainable development and radiation protection. Very comfortable with multidisciplinary projects and offering an original approach in the analysis of technical problems. Recognized scientific communicator.

S K I L L S A N D A C H I E V E M E N T S

Data Analysis & Instrumentation

- Participate in the development of algorithms for atmospheric remote sensing missions.
- Judicial expert witness (speeding, radar, lidar, multimedia file)
- Create a scene model for a space debris surveillance mission to assess in-flight performance.
- Participate in the testing of instruments for qualification of space and commercial instruments
- Interacts with scientists and space agency managers to clarify the technical definition and performance of missions.
- Write technical proposals for space missions.
- Familiar with spectroscopy and imaging systems.
- Designs a broadband radiometer for a space mission.

Environment and Energy

- Radiation protection
- Scientific coordinator and Head of thermal storage and life cycle analysis axis of the t3e Chair of the École de Technologie Supérieure
- Researcher and analyst for the Commission on Quebec energy issues
- Consultant for the Sustainable Development Commissioner of Quebec
- Designs and contributes to the establishment of the Mont Mégantic Dark Sky Preserve.

Public communications

- Presents report in advisory commissions (energy, light pollution, voting system, scientific heritage).
- Participate in public debates on subjects related to scientific research and sustainable development.
- Participates in interviews in electronic and print media.
- Freelance journalist for the Agence Science Presse
- Blogger for Science on Blogue !, for Voir and Québec Numérique
- Scientific columnist at Radio-Canada

Education

- Adjunct professor at Laval University and the University of Quebec at Rimouski
- Coordinator of the Science de la Nature program at the CNDF
- Teaching physics and mathematics at the college level
- Tutor for TELUQ University

S T U D E N T D I R E C T I O N

Université du Québec à Rimouski **2012–2016**

Adjunct professor, Département de mathématiques — informatique – génie

Master co-direction:

Contribution et conception préliminaire d'un système de récupération et de stockage de chaleur pour l'amélioration des performances d'un système hybride éolien-diesel avec stockage d'air comprimé

Université Laval **2006–2009**

Adjunct professor, Département de physique, génie physique et d'optique,

Master co-direction:

Détection par spectrométrie en réflectance diffuse de colonies microbiennes endolithiques
